Contract Recruiter-Engineering-Life Science

Description

Position Title: Contract Recruiter

Company HQ: Denver, this is a hybrid position

Position type: Temporary, 10 month Contract (1099 or Corp-Corp)

Hours: 40 Hours/Week

This company is located in West Denver and has a robust internal TA/HR team. This Contract Recruiter role will be full time for 40 hours/week. This will be a remote based position with onsite meetings with TA Team and hiring managers (approximately once/week). The team may consider someone 100% remote, but will prefer someone locally. This will be a 10 month contract, W2 or 1099.

Responsibilities

The person hired will support the Engineering group and will be focused on Engineer recruitment, with some assistance in other areas as needed. This person will be sourcing and recruiting Engineers in the Denver area, and beyond, for a variety of Engineering roles, from R&D to NPD to Sustaining. This company is a major player in the Denver market, and people love working here.

This is a long standing, high caliber Talent Acquisition group that is cohesive and work well together. There is an established recruiting program here with engaged hiring managers, and there is an openness for input and improvement.

Qualifications

Minimum Qualifications:

- Bachelors degree
- 2+ years Life Sciences Full Cycle Recruitment experience
- 1+ year of Engineering Recruiting Experience
- 2+ years of Corporate or Agency Recruitment Experience with professional level positions
- Proficient in LinkedIn Recruiter to source passive candidates
